

Berry Plastics is proud of the partnership that has been developed with Evansville Teachers Federal Credit Union and our employees over the past ten years. ETFCU provides outstanding services and support to our employees and our employees sincerely value the benefits they provide. Representatives visit our facility on a quarterly basis and are available to our employees to assist them with any financial and/or banking needs. They also provide periodic educational presentations to our employees relating to financial planning, managing debt and other relevant topics in order to assist them with maintaining a healthy financial lifestyle.

As with any company, we have faced some challenges and opportunities as well as introduced some changes in our practices over the past year. In managing these changes, our first thought was to contact our partners at Teachers Credit Union and request their assistance in helping us provide programs to support our employees through these changes. Without hesitation, they eagerly sat down with us and put a plan in place. These programs that were developed with Teachers Credit Union specifically for our employees helped tremendously in letting our employees know not only does Berry Plastics value them, but also that Teachers Credit Union supports and values them as well.

Thanks, ETFCU, for the compassion and support you provide to your members, our employees working here at Berry Plastics! We look forward to working with you for many years to come.

Sincerely,

Mary S. Reese
