I am the ET Ambassador for the Evansville Teachers Federal Credit Union at Guardian Automotive Trim Inc. in Evansville. During the last ten years, we have developed a great relationship with ETFCU. We have always received excellent service and enjoy all of the benefits the credit union has to offer.

To better serve our employees, we try to invite the credit union to visit our facility at least once each quarter, and they have always been right there when we ask them. A huge number of our employees are now members of the credit union and more employees ask for information about joining each month.

We really can't say enough good things about ETFCU. They really mean it when they say, "Everything We Do We Do for You".

Sincerely,

Bob Shoulders

Employee Training Coordinator
